

Net tool is a new system for volleyball net, wall, attack training.

Composed by 2 light aluminium structure to apply at net posts, they support 2 elastic ropes in parallel to the net. It is easily applicable to all the system, and work with the standard measures for male or female category.

LIST OF COMPONENTS:

- n° 2 aluminium structures;
- n° 2 elastic ropes 400 cm;
- n° 4 ropes 100 cm;
- n° 2 hook M8 with handle;
- n° 4 screws

ASSEMBLY INSTRUCTION

Position the aluminium structures to the post of the net. Structure holes have to face inside of the play court. Open the handle until it blocks and pass the blue rope around the post of the net, insert almost 10 cm into the slot. Use then the handle to tie it. Repeat for the other 4 mechanisms. Choose the right incline using the holes of the plates for regulation. Fix the hooks for the elastic ropes.

WARNINGS

- Before starting the assembly or use the system, read carefully instructions and verify the presence of all the components.
- Attention at the mobile arms when you have to pull out pivots for the height regulation;
- This system has been designed exclusively for volleyball training not for others uses;
- Do not climb on the posts or net;

MAINTENANCE

- Before use the tool control the general condition of it.

In case of structural failures or deformations, breaks or anomalies in general, contact immediately the installer or the dealer.
